

- *Developed by Dr. A. S. Naidu*
- *High in calcium and magnesium*
- *Balanced formulation, two types of calcium*
- *Excellent source of Vitamin D*
- *Rich in Vitamin K*
- *High in folate*
- *For strong bones and teeth**
- *Supports an increase in bone density**
- *Nutrients for muscle and nerve tissue**

Kenzen Whole Body Renewal

- 1 CORE SYSTEM:** Mega Daily 4™, Jade Greenzymes™, Ciaga™, Kenzen™ Body Balance
- 2 GASTROINTESTINAL SYSTEM:** Digestion Complex 4-20™, Lactoferrin Gold 1.8™
- 3 CARDIOVASCULAR SYSTEM:** Omega Green + DHA™
- 4 IMMUNE SYSTEM:** Immunity, Liver Support
- 5 SKELETAL SYSTEM:** OsteoDenx®, CalDenx®, Joint
- 6 NERVOUS SYSTEM:** Mental Clarity (only available in U.S.)

KENZEN CALDENX FEATURES/BENEFITS

- 900 mg of calcium per serving The most important ingredient for healthy, strong bones.*
- Magnesium..... Assists calcium absorption, helps maintain healthy teeth.*
- Vitamin D An important regulator of calcium absorption.*
- Vitamin K Aids in bone formation.*
- Folate Supports healthy red blood cell formation.*
- Boron Influences calcium and magnesium metabolism.*
- Complements Nikken OsteoDenx® In combination, offers a program for maintaining healthy bones.*

THE FACTS

- Nikken CalDenx® and Nikken OsteoDenx® offer a practical program to help support healthy bones and joints, as complementary formulations. Dr. A. S. Naidu developed these two products to work together, with OsteoDenx to support a natural increase in bone density, and CalDenx to provide the calcium and other minerals necessary for this process.*
- CalDenx supports the natural process of bone tissue replacement throughout every stage of life.
- CalDenx offers impressive amounts of the mineral compounds recognized as supporting bone and joint health. Its 900 milligrams of calcium equals 90% of the U.S. Daily Value.
- The United States Department of Agriculture reports that three-quarters of the American population do not have enough magnesium in their diets. The magnesium in CalDenx is equivalent to 56% of the U.S. Daily Value. Magnesium aids the body in metabolizing calcium and helps bind it to tooth enamel.*
- In addition, the levels of Vitamin D [225% of Daily Value], Vitamin K, boron, folate and chromium further support bone mineralization and mineral metabolism.*
- Many conventional calcium supplements are often bulky or chalky and thus difficult for many to tolerate. CalDenx is provided in convenient tablet form.

Supplement Facts / Datos de Suplemento

Serving Size / Tamaño por Ración: 3 Tablets / Tabletas
Servings Per Container / Raciones por Envase: 30

| Amount Per Serving / Cantidad por porción | % Daily Value / % Valor Diario |
|--|--------------------------------|
| Vitamin D (Cholecalciferol) / Vitamina D (colecalfierol) 900 IU / UI | 225% |
| Vitamin K (as Phytomenadione) / Vitamina K (como fitomenadiona) 120 mcg | 150% |
| Folate / Folato 180 mcg | 45% |
| Calcium (as calcium carbonate and 20% as calcium citrate) / Calcio (como Carbonato de calcio y Citrato de calcio) 900 mg | 90% |
| Magnesium (as magnesium oxide) / Magnesium (como Óxido de magnesio) 225 mg | 56% |
| Chromium (as chromium chloride) / Cromo (como cloruro de cromo) 45 mcg | 38% |
| Boron (as sodium borate) / Boron (como borato de sodio) 600 mcg | † |

†Daily Value not established / Valor diario no establecido

INGREDIENTS: Calcium carbonate, calcium citrate, magnesium oxide, bulking agent (microcrystalline cellulose, thickener: hydroxypropylmethyl cellulose; bulking agent: polydextrose; colour: titanium dioxide; maltodextrin, anti-caking agent: talc; medium chain triglycerides, glazing agent: carnauba wax), anti-caking agents (cross-linked sodium carboxymethyl cellulose, silicon dioxide, stearic acid, calcium stearate), vitamin K (phytomenadione), chromium chloride, vitamin D (cholecalciferol).

INGREDIENTES: Carbonato de calcio, citrato de calcio, óxido de magnesio, agente aglutinante (celulosa microcristalina, (espesante: celulosa de hidroxipropilmetilo; agente aglutinante: polidextrosa, color: dióxido de titanio, maltodextrina, agente antiapelmazante: talco; triglicéridos de la cadena media, agente de lustre: cera de carnauba), agentes antiapelmazantes (celulosa de carboximetilo de sodio reticulada, dióxido de silicio, ácido esteárico, estearato de calcio), vitamina K (fitomenadiona), cloruro de cromo, vitamina D (colecalfierol).

PRODUCT INFORMATION

| ITEM CODE | DESCRIPTION |
